

# Memo

**From:** Michael Sullivan, CDWR

**To:** SLV Notification List

**Subject:** Five Year Average Groundwater Withdrawals in Response Areas per Rule 8.1.5

**Date:** October 6, 2015

Below is the table listing the metered total annual withdrawals beginning in 2009 and the 5 year (2010-2014) average of the metered total annual withdrawals for the previous five Water Administration Years for the Response Areas subject to Rule 8.1.5. The last column is the estimated average groundwater withdrawal for the 1978-2000 period.

Response Area	Metered GW Withdrawal (af)						5-Year Average GW Withdrawal	Estimated Average GW Withdrawal
	2009	2010	2011	2012	2013	2014	2010-2014	1978-2000
Conejos	21,100	26,903	33,474	40,857	42,931	33,764	35,586	23,018
Alamosa / La Jara	79,851	100,414	119,573	112,158	110,959	93,837	107,388	103,406
San Luis	9,694	11,043	14,071	13,454	11,931	13,486	12,797	9,869
Saguache	37,261	43,806	48,011	44,869	39,793	40,038	43,303	45,592
