NONTRIBUTARY GROUND WATER CONSENT LANDOWNERSHIP STATEMENT

AQUIFER: _____

I (we) (Please Print) _____,

whose mailing address is: _____
(street)

(city) (state) (zip) (phone)

claim and say that I (we) am (are) the owner(s) of the following described property consisting of _____ acres in the County of _____, State of Colorado.
(insert the property's legal description)

I (we) further claim and say that the right to withdraw the ground water in the aquifer underlying the above described land has been conveyed to others as evidenced by the attached copy of a deed recorded in the county (or counties) in which the land is located, and that the right to withdraw the ground water has not been reserved nor has consent been given to any another except as indicated in the attached deed.

Further, I (we) claim and say that I (we) have read the statement made herein; know the contents thereof; and that the same are true to my (our) knowledge. Pursuant to Section 24-4-104(13)(a), C.R.S., the making of false statements herein constitutes perjury in the second degree and is punishable as a Class 1 misdemeanor.

INSTRUCTIONS:
Nontributary Ground Water Consent Landownership Statement

This form is to be submitted with all applications indicated below, when the applicant is not the owner of the overlying land.

1. Determinations of Water Rights of ground water inside a Designated Ground Water Basin pursuant to C.R.S. 37-90-107(7) consisting of any ground water from the Dawson, Denver, Arapahoe, or Laramie-Fox Hills aquifers, and any application for water rights from other Designated Basin bedrock aquifers pursuant to Commission Rule 5.4.

The statement must be signed by the landowner. If the landowner is a company, corporation, organization, etc. the statement must be signed by an official of the company who must indicate his/her position or capacity that grants authorization to sign.

The aquifer from which the ground water is to be withdrawn must be indicated. The landowner shall provide a separate statement for each aquifer being applied for.

The legal description and the number of acres of overlying land must be indicated. In areas of the state that are not surveyed, the State Engineer will accept an alternate description of the overlying land sufficient to identify and locate the land. For legal descriptions of irregularly shaped parcels (where the boundaries do not follow or parallel section lines), or where there are exclusions of land within the total parcel, the applicant must submit a map having a scale of 1:24,000 or larger (e.g. 1:10,000) which accurately depicts the overlying land.

If the legal description is too lengthy for the space provided on the statement, please refer to an attached legal description in the space provided and attach the complete legal description.

If the attached copy of the deed provides an adequate legal description, that deed may be referenced in the space provided.

The legal descriptions and maps must be complete and legible. Descriptions that are illegible or incomplete (e.g. that reference exclusions without legal descriptions) may be returned.
