

INSTRUCTIONS FOR ROOFTOP PRECIPITATION COLLECTION SYSTEM PERMIT APPLICATION

Applications must be computer generated online, typewritten, or printed in **black or blue ink**.

FEES: Refer to the section below titled, *HOW TO APPLY* to determine if you need to pay a fee and the amount. Fees are nonrefundable. Acceptable forms of payment are check or money order payable to the Colo. Div. of Water Resources. Payments made by Visa, MasterCard or Discover can be accepted by phone through the Records Section at (303) 866-3581.

Pursuant to Senate Bill 09-080 (signed by the Governor on 4/22/2009) on or after July 1, 2009, any person wishing to use a system or method of rooftop precipitation collection must qualify under Colorado Revised Statutes (C.R.S.) 37-92-602(1)(g) or 37-90-105(1)(f).

TO QUALIFY, ALL OF THE FOLLOWING MINIMUM CRITERIA MUST BE MET:

1. The property on which the collection will take place is residential property; and,
2. The property must either have a water well or be legally entitled to have a water well as the water supply; and,
3. The well use does not exceed those uses described in C.R.S. 37-92-602(1)(g) or 37-90-105(1)(f), being ordinary household purposes, lawn/garden irrigation of not more than one acre, watering of poultry, domestic animals, and livestock on farms and ranches, and fire protection; and,
4. There is no water supply to serve the property available from a municipality or water district; and,
5. The precipitation is collected only from the roof of a building used primarily as a residence; and,
6. The collected precipitation is only used for those uses that are allowed by the existing well permit, or on a well permit that the property would be legally entitled to.

If you do not meet ALL of the above criteria, **or if your well permit number ends with a suffix other than “-A” such as “-F” or “-R”**, the provisions of Senate Bill 09-080 do not apply to you. In certain cases, you may still be able to collect rainwater under House Bill 16-1005. For more information, see the DWR website at <http://water.state.co.us>.

HOW TO APPLY: Follow the instructions below that best fit your situation; completed forms may be submitted to the Division office where your property is located or the Denver office. For Divisions 1 & 2, submit form(s) to the Denver office. If filing online please see online filing instructions on the DWR website for further information. You may also save, print, scan and email the completed form to: DWRpermitsonline@state.co.us.

- A. If you have an existing permitted well or unexpired well permit issued pursuant to C.R.S. 37-92-602 or 37-90-105; and, you want to include a rooftop precipitation collection system as an approved use, complete this form. **There is no filing fee.** If the well was in use prior to May 8, 1972, it is less likely to have been issued a permit.
- B. If you are applying for a permit to construct a well and use a rooftop precipitation collection system, complete Form No. GWS-44, *Residential Water Well Permit Application*, and this form. **The filing fee for Form No. GWS-44 is \$100. There is no filing fee for this form.**
- C. If you do not intend to construct a well, but want to use a rooftop precipitation collection system, complete this form and Form No. GWS-44, *Residential Water Well Permit Application* so the CDWR can determine if your property is entitled to the issuance of a well permit. **The filing fee for this form is \$60. There is no filing fee for Form No. GWS-44 in this case since a permit to construct a well will not be issued.**
- D. If you have an existing unpermitted well that was in use prior to May 8, 1972, for those uses described in C.R.S. 37-92-602(1)(g) or 37-90-105(1)(f), and you want to include a rooftop precipitation collection system as an approved use, complete this form and Form No. GWS-12, *Registration Of Existing Well*. **The filing fee for Form No. GWS-12 is \$100. There is no filing fee for this form.** You must review the instructions for completing Form No. GWS-12 prior to submitting it to determine if you will also need to complete and submit Form No. GWS-12-A, *Statement of Historical Uses*.
- E. The individual signing the application or entering their name (and title if applicable) must be the applicant or an officer of the corporation/company/agency identified as the applicant or their attorney. An authorized agent may also sign or enter their name on the application if a letter signed by the applicant or their attorney is submitted with the application authorizing that agent to sign or enter their name on the applicant’s behalf. Payment must be received via phone if filing online at 303.866.3581 (Records Office) prior to processing the application.

If you have any questions, contact the Division office where your property is located, or the Denver office. Water Divisions and offices are based on major river drainage areas. For example, the Division 1 office administers the South Platte River Basin.

**ROOFTOP PRECIPITATION COLLECTION SYSTEM
Permit Application**

**For existing permitted well or unexpired permit, enter permit # (review form instructions on reverse before completing or submitting form).
Well Permit No.:** _____

Applicant Information:
 Name(s): _____
 Mailing Address: _____
 City, St. Zip: _____
 Phone: _____ Email Address: _____

Div_____ WD_____ Basin_____ MD_____

Disclaimer Statement:
The State Engineer/Division of Water Resources assumes no responsibility or liability regarding the quality of collected precipitation as a water supply.

Location: County: _____
 _____ 1/4 of the _____ 1/4, Section _____, Township _____ N. or S., Range _____ E. or W., _____ P. M.
 Property Address: _____
 Check here if property address is same as above under Applicant Information.

Is/will the property be served by a domestic water system that serves more than three single-family dwellings such as a municipality or water district? Yes / No: If "Yes", you do not qualify for a rooftop precipitation collection system. See instructions for this form or CDWR's website at www.water.state.co.us for more details.

Describe the rooftop precipitation collection system below. The use of collected precipitation is limited to those uses allowed by the existing well permit, or on a well permit that the property would legally be entitled to. Precipitation may only be collected from the roof of a building that is used primarily as a residence.

The making of false statements herein constitutes perjury in the second degree, which is punishable as a class 1 misdemeanor pursuant to C.R.S. 24-4-104(13)(a). I have read the statements herein, know the contents thereof, and state that they are true to my knowledge.
